

KPLER GOES BIG AT POSIDONIA

Kpler, the premier source for global trade intelligence, is embarking on its first Posidonia participation following last year's acquisition of Greek maritime tech company MarineTraffic, the world's leading ship-tracking intelligence platform. Founded a decade ago, Kpler has become a crucial tool for global trade monitoring, offering data, analysis, and intelligence on a wide range of commodities and their transportation. The company revolutionised the industry by introducing the first cargo-tracking solution for the burgeoning LNG market. Today, it monitors over 40 markets, covering liquids, dry bulk, freight, and inventories. As the sponsor of the Posidonia 2024 Opening Ceremony, **François Cazor**, CEO of Kpler, said, "Posidonia, one of the world's premier shipping events, is committed to innovation and delivering value to participants and the broader maritime community, a commitment that Kpler deeply shares. We are proud to announce our role as the inaugural sponsor of Posidonia's opening ceremony. This partnership underscores our dedication to the maritime community in Greece and globally, a commitment upheld through our leading platforms, Kpler and MarineTraffic." Cazor emphasised that Kpler maintains a strong presence in Athens, which he considers vital to the company's operations. "We recognise the importance of Greece's maritime contributions and are always open to finding new ways to collaborate with Greek partners to add value for our stakeholders. Additionally, we continuously seek new talent in Greece, an important hub for Kpler." Kpler will showcase its full portfolio of services at Posidonia and demonstrate its MarineTraffic Inbox solution, a specialised email management tool designed for maritime shipping professionals. At Posidonia 2024, the company aims to enhance its presence in the maritime industry and engage directly with current and prospective customers.

MASTER THE SEAS WITH SEAORAMA

SeaOrama: World of Shipping is a strategic management video game designed to capture and present the shipping industry in an engaging and educational way and stands out for its unique simulation approach inspired by real shipping data! In SeaOrama: World of Shipping, players take on the role of a young entrepreneur trying to build the world's largest and most successful shipping company from the ground up. Bridging the knowledge gap, players are educated on the economic, environmental, and social impact of shipping and global sustainability, while learning about all the career opportunities the shipping industry offers. Each player starts the game with a single ship and is asked to invest wisely to develop his company to make it a dominant force in the global trading arena. With access to a fleet consisting of 17 different types of ships, player-entrepreneurs are invited to choose and create their own unique fleet. From tankers to bulk carriers and to container ships, players must ensure that their fleet is properly maintained and equipped. Expanding its activities and visibility in the international shipping market, SeaOrama is in the process of creating a new maritime training tool that will now be targeted at industry professionals. The company's immediate plans comprise the development of some initiatives that will include physical interaction, aiming to educate the participants on shipping and the marine environment in an experiential way. Visit www.seaorama.com and start building your own fleet. It is available on [STEAM](#), [EPIC](#) and [GOG!](#)

FRANMAN FORGES FORWARD FORMING NEW PARTNERSHIPS

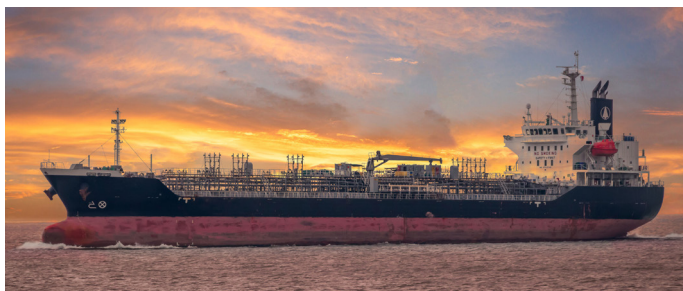

Franman, a provider of a diversified range of equipment, parts, products and services to the maritime industry, is preparing for yet another Posidonia, the 16th in the company's 33 years of operations. Franman's strong presence at this year's Posidonia with a pavilion located at the heart of the Metropolitan Expo Center, will be reinforced through a significant announcement it plans to make regarding a new agreement. It also plans to amplify a series of recently signed partnerships with major international makers and providers of innovative products and services in the areas of maritime decarbonisation and digitalisation. "Franman's dedication to promoting innovation in the maritime industry is evident through these recent collaborations which reinforce our portfolio of cutting-edge sustainability solutions for the shipping industry," said **Costis Frangoulis, Founder and CEO** of the Athens-based company. "Posidonia represents a crucial opportunity for maritime stakeholders to come together, exchange insights, and address upcoming challenges. It provides a vital platform for Franman to showcase our latest advancements and strategic alliances, reinforcing our role as a leader in the maritime sector. We eagerly anticipate utilizing Posidonia's international platform to engage with industry leaders, establish new partnerships, and champion decarbonisation and digitalisation solutions that drive the industry forward."

GROUNDBREAKING DRONE TECHNOLOGY AT POSIDONIA 2024

A brand-new concept in the maritime inspection process will be showcased at Posidonia 2024 by Swiss drone maker **Flyability**. On its Posidonia debut, the Lausanne-based company will present its latest payload for its Elios 3 drone. The Ultrasonic Thickness (UT) payload was developed in partnership with Cygnus Instruments and it turns the Elios 3 into a flying UT measurement gauge that can take accurate thickness measurements backed up with high-resolution A-scans in the most challenging areas. The drone is designed to fly in confined spaces, making it ideal for tank or ballast inspections, where it can gather visual, UT and LiDAR data simultaneously. At the show, the company will perform demos of the drone flying up to several test points and taking UT measurements and explain how it can be used for periodical ship inspections. "With the Elios 3 UT Payload, we have a product that can bring maritime inspections to a whole new level of efficiency, safety and speed, all in compliance with maritime standards," said **Fabio Fata, Sales Manager**. "Posidonia 2024 will witness a revolution in the way maritime inspections are conducted." Flyability has already a significant customer base in Greece.

EXPANSION PLANS

Seascope Marine & Trading LTD has recently inaugurated its offices in Cyprus and plans to further expand its global geographic footprint with offices in Singapore and the UK. The Piraeus-based company represents and collaborates with leading factories and suppliers from Asia, Europe, the USA, THE UAE, and Latin America for the provision of vessel engine parts, deck equipment and repair services. Ahead of its seventh Posidonia participation, spokesperson **Iris Liaskoni** said: "We have the opportunity for a strong presence in one of the world's largest exhibitions in shipping, showcase our products and services directly to a targeted audience, to expand our collaborations, meet our customers and possibly increase our market share. We look forward to welcoming our customers, partners and anyone interested to visit us and find more about our philosophy which is to build strong relationships and keep our promises." At Posidonia, Seascope plans to introduce a new web application service launched by Hitachi Zosen, called HIZAS, which is compatible with many engines and uses vessel data and AI to help customers visualize and monitor engine performance and speed to prevent faults.

BVI BOOSTS GREEN SHIPPING INCENTIVES TO ATTRACT MERCHANT VESSELS

Virgin Islands Shipping Registry (BVI) returns to Posidonia for the ninth time this summer to meet potential clients from the merchant marine community and promote the flag's commitment to green shipping. Long known as the go-to flag for luxury yacht owners, the registry has been making inroads into ships of any size and shape. "As one of the largest flags for recreational yachts, we proudly serve as a premier choice for yacht registration. While specializing in yachts, we extend our services to register ships of any size and shape, ensuring comprehensive support for diverse maritime needs. Upholding the esteemed British flag, synonymous with unparalleled quality and adherence to stringent maritime standards, we provide shipowners with a prestigious and reputable choice for their vessels," said **John Samuel, Director**. "Moreover, we are developing a comprehensive policy spanning across various ministries to incentivise green shipping practices, benefiting ship registration, port calls, and beyond," he added. The exotic Registry is strategically expanding its global presence with plans to establish offices in the Mediterranean, Dubai, Singapore, and Florida and is eager to forge partnerships with the green propulsion technology industry, aligning with its commitment to fostering cleaner seas through mutually beneficial associations.

HNHS USHERS IS A NEW ERA IN NAVIGATION TECHNOLOGIES

The Hellenic Navy Hydrographic Service (HNHS) is charting its course towards a seventh Posidonia participation where it plans to create public awareness about its work and services, network with shipping executives and inform the industry about new standards, protocols and related technologies that will come into effect from 2026 to enable the shift from simple Electronic Navigational Charts (ENCs) to digital geo-information systems. ENCs will have a direct effect on shipping, facilitating decarbonisation and environmental protection and increasing the safety of navigation. HNHS is the official hydrographic organisation of Greece. It is a governmental agency that has exclusive competence and certification to draw up, publish, supplement and correct the official navigational charts of Greece, both printed and electronic and their updates, as well as to publish, supplement and correct official nautical publications. HNHS collects, processes and uses information and data to generate products and services related to Hydrography, Naval Cartography, Marine and Military Oceanography. Lastly, the HNHS is the National Coordinator for the management and operation of NAVTEX Service, in accordance with national and international law and practice.

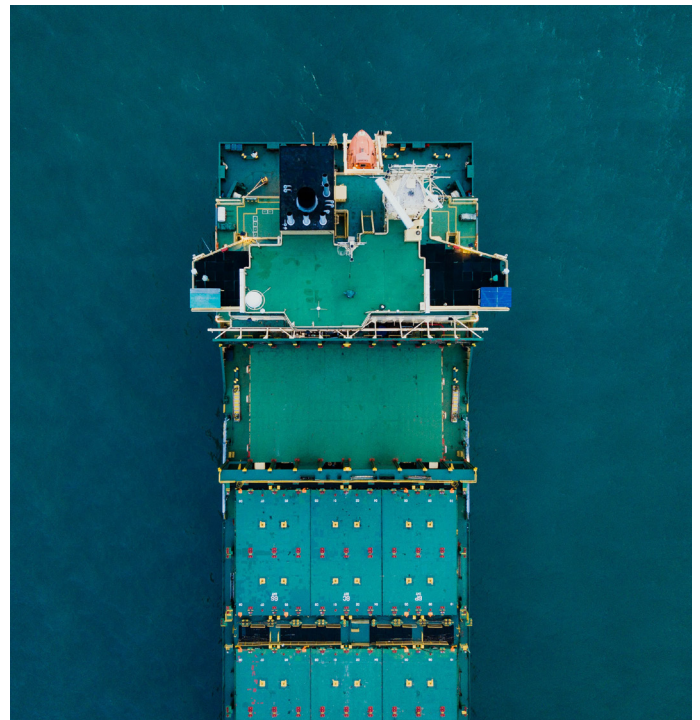

NEW ROBOTIC HULL CLEANER DEBUTS IN POSIDONIA

Dynamic Group of Companies, a Piraeus ship repairs, new constructions and heavy industry repairs specialist, is preparing for its second Posidonia participation, where it plans to unveil its latest breakthrough in ship maintenance, a state-of-the-art robotic equipment for hull cleaning. "This innovation represents not just a step, but a leap forward in ship repair, painting, and coating processes, delivering unmatched efficiency and significant environmental benefits," said CPT **John Nikolitsis, CEO**. He added: "In addition to its impressive capabilities, our technology offers numerous advantages, including reduced ship downtime, lower maintenance costs, and a significant reduction in harmful emissions." At its Posidonia booth, the company will host live demos where visitors will experience the transformative impact of the new technology on hull cleaning and maintenance practices. Nikolitsis added: "Posidonia 2024 is more than an exhibition; it's a pivotal gathering where innovation converges with tradition, propelling the maritime industry towards a future marked by sustainability and efficiency. Our participation is an opportunity to not only highlight our technological advancements but also our vision for a greener, more interconnected maritime community. We are navigating towards innovation, efficiency, and sustainability, inviting the industry to embark on this transformative journey with us."

GUINEA-BISSAU LAUNCHES SHIPS REGISTRY

GB international, the international ships registry of Guinea-Bissau, is making its Posidonia debut this year as an exhibitor to promote its brand and services and communicate its added values and strengths to a broader audience of marine industry professionals and network with existing and potential new customers. The tropical western African nation, known for the taste and quality of its cashews, mangos and papayas, is making an ambitious attempt to enter the international ship registry industry fray and, unsurprisingly, it has decided that Posidonia is the place to help the shipping community find out more about its capabilities in the sector. "We must stress on the use of new technologies by applying digitalised services in addition to implementing the best working conditions for all seafarers without forgetting the environment and the shift to decarbonise shipping", said **Richard Medawar, Deputy General Ships Registrar** of GB International. "As we are still in the process of expanding our international network and are interested in meeting potential serious partners, opening new offices abroad could be a foreseeable future plan," he added.

TURBO ENGINE SERVICE

TRS Turbochargers Repairs and Spares returns to Posidonia for its second participation following a successful debut two years ago when it managed to get exposure to new prospective clients but also give existing clients and partners the opportunity to meet the team in person and find out more of the company. **Dimitris Gaganis, Managing Director**, said: "Innovation may have been implemented at a slower pace in the past in our industry, but things have now changed. Goals are set and accountability is higher than ever before. At TRS we are always doing our best to not only keep up but be ahead of such changes. We see exciting and challenging times ahead and we are focusing and investing in what we deem to be the core parts of our business for the future. Big changes are already underway in our industry and our company is very much in the forefront of such changes. We are training our teams with regards to new fuels and technologies on the turbo side of engines as we aim at being one of the first companies to be able to service and work on such turbos."

POSIDONIA 2024 SHUTTLE BUS PROGRAMME

Route 1: Athens International Airport Metro Station - Metropolitan Expo

Tuesday 28 May - Sunday 2 June (build-up period)

Roundtrips throughout the day from 7:45 to 20:15

Monday 3 June

Roundtrips throughout the day from 11:00 to 21:00

Tuesday 4 to Thursday 6 June

Roundtrips throughout the day from 10:00 to 19:30

Friday 7 June

Roundtrips throughout the day from 10:00 to 18:00

Note: The Shuttle Bus runs every 30 minutes

Note 2: Route 1 services Sofitel at the Airport

Route 1 Sponsored by

Route 2: Syntagma Square (at the main entrance of the National Garden)- Metropolitan Expo [MAP]

Tuesday 4 to Thursday 6 June

Departures from Syntagma Square: 9:00, 09:15, 9:30, 09:45 and 10:00

Return from Metropolitan Expo: 18:50, 18:55, 19:05, 19:15, 19:20 and 19:25

Friday 7 June

Departures from Syntagma Square: 9:00, 09:15, 9:30, 09:45 and 10:00

Return from Metropolitan Expo: 16:25, 16:40, 16:55, 17:15, 17:20 and 17:30

Route 3: Doukissis Plakentias Metro Station - Metropolitan Expo [MAP]

Monday 3 June

Roundtrips throughout the day from 11:00 to 21:15

Tuesday 4 to Thursday 6 June

Roundtrips throughout the day from 09:30 to 19:30

Friday 7 June

Roundtrips throughout the day from 09:30 to 17:30

Note: The shuttle bus runs every 30 minutes

Route 4: Glyfada Old City Hall (on Possidonos Avenue) - Metropolitan Expo [MAP]

Tuesday 4 to Thursday 6 June

Departures from Glyfada Old City Hall (on Possidonos Avenue): 9:00 and 10:00

Return from Metropolitan Expo: 18:45 and 19:10

Friday 7 June

Departures from Glyfada Old City Hall (on Possidonos Avenue): 9:00 and 10:00

Return from Metropolitan Expo: 16:45 and 17:05

List of Confirmed Conferences & Seminars at Posidonia 2024 as of 20.05.2024

	Organiser	Event Title	Posidonia Venue	Time	Contact Organiser
THU 30/5	Cannon Events	Marine Insurance Greece	Athens Marriott Hotel	09:00-17:00	Grant@cannonevents.com
FRI 31/5	School of Maritime and Industrial Studies, University of Piraeus	Shipping Intelligence at the Edge: Artificial vs Human	H/S/F Knossos Palace of MINOAN Lines	11:00-16:00	shipman@uniipi.gr
MON 3/6	Capital Link	9th Capital Link Maritime Leaders Summit	Four Seasons Astir Palace Hotel Athens	08:30-15:30	ebej@capitalink.com
	Baltic Exchange	Baltic Exchange Risk Forum at Posidonia	The Margi Hotel	11:30-16:00	marketing@balticexchange.com
TUE 4/6	TradeWinds	TradeWinds Shipowners Forum 2024	Conference Hall	11:00-16:00	info@tradewindsevents.com
	Embassy of the Republic of Poland in Athens	POLAND - Thinking out of the box about maritime industry	Seminar Room Central	10:30-12:30	agata.krupa@msz.gov.pl
	S&P Global Commodity Insights	S&P Global Commodity Insights Shipping Forum	Seminar Room 1A - Sponsored by S&P Global Commodity Insights	10:45-18:30	liz.herbert@spglobal.com ; Anuj.Anglish@spglobal.com
	SGS Greece	LNG Bunkering - Custody transfer. Identifying financial and technical exposures	Seminar Room 2A	10:45-12:30	antonis.oikonomou@sgs.com ; grbunkers@sgs.com
	UES Marine	The Ferry Experience, Passenger	Seminar Room 2B - Sponsored by UES Marine	10:45-12:30	bpetersen@uesint.com
	Schneider Electric & Msystems	Edge Solutions for Maritime installations	Seminar Room 1B	12:45-14:30	anastasios.sarris@se.com
	Viva Energy Australia, hosted by Haven Marine Services Ltd	Viva Energy Australia Shipping Forum	Seminar Room 2A	12:45-14:30	haven@hmserv.gr
	MAN Energy Solutions Hellas Ltd	MAN PrimeServ Retrofit Solutions: Navigating Decarbonization	Seminar Room 2B - Sponsored by UES Marine	12:45-14:30	spiros.sofianos@man-es.com
	Japan Ship Exporters' Association (JSEA)	Challenges by Japan	Seminar Room Central	13:30-17:00	posidonia@jsea.or.jp ; takeyumi@jsea.or.jp
	Vessel Performance Solutions	End to End Digital Performance Management for Sustainable Ships	Seminar Room 2A	14:45-16:30	jdr@vpsolutions.dk ; ear@vpsolutions.dk
	Wärtsilä	Wärtsilä Technical Seminar - Future Fuel and Decarbonisation Solutions	Seminar Room 2B - Sponsored by UES Marine	14:45-16:30	posidoniaevent@wartsila.com
	Macquarie Group	The EU Emissions Trading System (EU ETS) and Afternoon Tea	Seminar Room 1B	14:45-16:15	posidonia@macquarie.com
	Maritime London and the British Embassy in Athens	Securing your Ships from External Disruptions: Safety and Decarbonisation perspectives	Book Castle, Stavros Niarchos Foundation Cultural Center	15:30 - 19:15	events@maritimelondon.com
Hellenic Ports Association (ELIME)	Ports: Security, Technology and Environment	Seminar Room 1B	16:45-18:30	elime@elime.gr	
Norsepower Oy Ltd	Harnessing the Wind: The Role of Norsepower Rotor Sail™ in complying with Fuel EU and EU ETS regulations	Seminar Room 2A	16:45-18:30	sales@norsepower.com	
Kyvernitis Travel Group	Crew Insights	Seminar Room 2B - Sponsored by UES Marine	16:45-18:30	imarinakis@kyvernitis.gr	
Isalos.net	Innovative Management: Responses to the future challenges of shipping	Seminar Room Central	17:00-19:00	info@salos.net	
WED 5/6	Royal Norwegian Embassy in Athens and Norwegian Maritime Authority	Quality Flag Breakfast	Ploes Floating Venue	10:00-11:30	ansa@dir.no
	Hellenic Marine Environment Protection Association (HELMPEPA)	Shipping Resilience to Climate Change	Conference Hall	10:30-14:30	helmepea@helmepea.gr
	BIMCO	Today's contractual solutions for your decarbonisation voyage	Seminar Room Central	11:30-13:30	et@bimco.org
	LALIZAS	Safety is not just a product, it is an ongoing process	Seminar Room 1A - Sponsored by S&P Global Commodity Insights	10:45-12:30	communication@lalizas.com
	Shanghai Qiyao Environmental Technology	Green fuel or CCUS? It's not a question	Seminar Room 1B	10:45-12:30	yaoping@ccpimtscc.org
	DNV	DNV Expert Talks "Energy Efficiency - Tankers & Bulkers in focus"	Seminar Room 2A	10:45-12:30	georgina.vranaki@dnv.com
	DANELEC	Leading the Way for Safe and Sustainable Maritime Strategies	Seminar Room 2B - Sponsored by UES Marine	10:45-14:30	info@danelec.com
	Telematic Medical Applications	AI Empowered Wellbeing in Shipping	Seminar Room 1B	12:45-14:30	aserafeim@tma.gr
