

POSIDONIA 2026 CONFERENCE PROGRAMME KICKS OFF EARLY WITH GEOPOLITICS DOMINANT IN INDUSTRY AGENDA

From insurance and risk management to energy transition, digitalisation and maritime security, the Posidonia 2026 conference programme highlights an industry actively reshaping itself in response to geopolitical disruption and structural change.

This year's programme, set to begin weeks ahead of the exhibition itself, reflects a shipping industry navigating one of its most complex operating environments in decades, where war, sanctions, tariffs, insurance premiums, shifting trade routes and regulatory pressure are redefining both risk and opportunity.

The first events begin in early May, underlining how Posidonia has evolved into a multi-week platform for dialogue rather than a single exhibition moment.

"Posidonia has always been more than an exhibition. It is a platform where the industry comes together to address real-world challenges and shape its future direction," said **Theodore Vokos, Managing Director, Posidonia Exhibitions S.A.** "This year's conference programme reflects the urgency of the issues facing shipping today, particularly the impact of geopolitics, energy transition and technological change. The discussions taking place, even before the exhibition officially opens, highlight how critical collaboration and dialogue have become for the industry."

Kicking off the calendar, **Marine Insurance Greece** (6-7 May) will address how the insurance market is responding to escalating geopolitical tensions and operational risks. With sessions covering sanctions, the rise of the "dark fleet", US policy shifts and war risk dynamics, the conference will explore how the sector is adapting to an increasingly volatile global landscape. "With recent geopolitical events, shipping is most definitely back in the spotlight, highlighting once again just how dependent the global supply chain is on the shipping sector," said the event's organiser **Daniel Casey, Managing Director, Cannon Events.**

Closely following, on May 7, the **RightShip Conference** titled **Redefining Maritime Safety Through Data, Trust, and Collaboration** will turn attention to data, transparency and collaboration as key enablers of safer and more sustainable shipping. "Behind every data point is a human outcome; a safer voyage, a more sustainable decision, a seafarer returning home safely," said **Steen Lund, CEO, RightShip.** "As an industry, we have a responsibility to harness data not just for insight, but for impact. By working together, we can build a more transparent, connected and trusted maritime ecosystem that raises standards for everyone."

On 20 May, the **Naftemporiki Shipping Conference, "Shipping Between Global Powers: Where Geopolitics, Energy & Climate Shape the Future"**, will further elevate the geopolitical theme, examining how global power dynamics, energy security and climate policy are reshaping shipping. The theme of this year's event reflects this variability, focusing on the geopolitics of the sea, Greece's role as an energy hub, the challenges of decarbonization and developments in ports, shipbuilding and key market sectors. "We live in a time when shipping is not just affected by developments, it is at their center," said **Georgios Melissanidis, Publisher, Naftemporiki.** "Shifting geopolitical balances and the accelerating energy transition are shaping a new, more demanding environment."

Once Posidonia week begins, the conference programme intensifies, bringing together some of the industry's most influential voices.

The **Capital Link Maritime Leaders Summit** (1 June), held in partnership with DNV, will mark 20 years of convening top-tier shipowners, financiers and policymakers. The agenda reflects real-time global market priorities while highlighting the enduring leadership of the Greek shipping community, a cornerstone of international maritime trade and home to the world's largest privately owned fleet.

Discussions will span global trade flows, geopolitics, energy transition and technology, with participation from leading Greek and international shipping groups. "Posidonia and our Summit are held at a critical time for the world and shipping," said **Nicolas Bornozis, CEO of Capital Link.** "Our Summit brings together industry leaders at the highest level. It features the founders and leaders of Greece's most influential shipping companies, together with key players from the global maritime industry. These are the leaders shaping where shipping is heading next."

On 2 June, the **TradeWinds Shipowners Forum Greece** will tackle "**Resilience in the face of disruption**", addressing how shipowners are managing risk in a world of geopolitical fragmentation, economic uncertainty and regulatory pressure.

With senior executives from major global shipping companies and financial institutions, the forum will explore how operators can navigate volatility, safeguard asset values and adapt to shifting trade patterns. It will table critical questions such as: how can shipping operate and invest successfully amid geopolitical chaos and how are tensions between US-China and Trump-era policies impacting global trade flows. "As the global shipping landscape grows more complex, our readers need more than news – they need perspective and connection, which comes together in Athens during Posidonia week," said **Julian Bray, Editor in Chief, TradeWinds.**

Geopolitical risk and infrastructure security will also take centre stage at a seminar organised by the **Embassy of the Republic of Poland in Athens** under the auspices of the Ministry of Foreign Affairs of the Republic of Poland **within the framework of Poland's presidency of the Council of the Baltic Sea.** The seminar seeks to examine the evolving relationship between maritime security and energy security, to identify shared vulnerabilities across Europe's maritime spaces, and to advance practical cooperation between the Baltic and Mediterranean regions. The focus will also be on the geopolitical dimension of hybrid threats in the maritime space and how the Baltic and Mediterranean maritime spaces, despite their different geopolitical contexts, face comparable structural vulnerabilities.

"Geography separates the Baltic from the Mediterranean, but hybrid threats, sabotage risks, geopolitical competition and energy flows connect them in practice and require coordinated actions," noted **chargé d'affaires at the Embassy, Wojciech Ponikiewski,** highlighting the need for coordinated international responses.

The **HELMEPA International Conference** (3 June) introduces **Ocean Intelligence in MetaShipping:** four interconnected forms of intelligence: ecological, human, technological, and financial, covering issues from biodiversity and crew skilling to AI, automation, and investment in the energy transition. Each essential, all connected. The audience brings together shipowners, maritime leaders, policymakers, regulators, financiers, academics, innovators, and the new generation, a full house where the right conversations happen with the right people.

To conclude, **Vokos** added: "Across all events, a clear narrative emerges: shipping is no longer operating at the margins of global developments – it is at their core."

ELINOIL STRENGTHENS MARINE LUBRICANTS PROFILE AT POSIDONIA 2026

Having participated in Posidonia 11 times since 2000, **ELINOIL** has consistently leveraged the exhibition to enhance corporate visibility, strengthen brand recognition, and build lasting partnerships across the maritime value chain. At Posidonia 2026, the company aims to further deepen relationships with existing partners while creating new business opportunities within the global shipping community. **Stathis Grafakos, Commercial Director Energy Products at ELINOIL S.A.**, said: "ELINOIL follows the tradition of a strong presence at the Posidonia Exhibition, demonstrating our long-term commitment to serving the Greek and international shipping industry with top-quality products and services." With environmental regulation and performance expectations placing greater emphasis on lubricant quality and engine protection, ELINOIL S.A. will use Posidonia 2026 to reinforce its long-standing commitment to the Greek and international shipping industry. Based in Greece, ELINOIL operates as a marine lubricants supplier, supporting shipowners and operators with high-quality products designed to meet modern operational and regulatory demands. A key focus of ELINOIL's presence at the exhibition will be the presentation of new marine lubricant approvals acquired in 2025, reflecting the company's ongoing investment in quality assurance, technical compliance, and product innovation.

NOZZLE TO MAKE POSIDONIA DEBUT WITH AI-POWERED FLEET MANAGEMENT INNOVATIONS

Making its first appearance at Posidonia, **NOZZLE Ship Management Software** is set to introduce the global shipping community to its all-in-one, cloud-based fleet management platform, designed to help shipowners and managers streamline maintenance, procurement, inventory, and operational documentation within a single digital environment. For the Istanbul-based maritime technology company, Posidonia 2026 represents an important opportunity to engage directly with shipowners, technical managers, and fleet professionals seeking more structured and transparent ways to manage increasingly complex vessel operations. The company will also showcase its already available Document AI solution, which automatically reads and analyses Excel- and Word-based operational forms. **Esin Amaç, Marketing & Licensing Executive**, said: "Posidonia is a highlight for us. It brings together the people who are actually driving decisions in shipping, and that makes it the perfect setting to have meaningful conversations about where the industry is heading. We're excited to show how NOZZLE helps companies cut through the complexity of technical and operational data."

VESSEL ENERGY EFFICIENCY IMPROVED BY 9% THANKS TO NEW SYSTEM

Danish marine flow control specialist **Vexve Denmark | Frese A/S** will use Posidonia 2026 as a platform to present the latest evolution of its Frese FUELSAVE® System, an automated flow management solution designed to improve vessel energy efficiency and support decarbonisation targets. The company, which develops dynamic valves and energy-efficient solutions for hydronic marine systems, says the upgraded FUELSAVE® platform will be demonstrated live at the exhibition. The fully automatic system manages engine cooling applications and can deliver energy savings of up to 9% of a vessel's total annual fuel consumption, helping operators reduce both fuel costs and emissions. Posidonia 2026 will also provide an opportunity for the company to strengthen relationships with existing customers while expanding its presence among shipowners and technical managers seeking practical energy-saving technologies. "We very much look forward to participating in Posidonia 2026 and meeting both new and existing customers," said **Jeppe Malmlose, Sales Director, Marine & Offshore**. "At the exhibition, we will show how our dynamic valve technology and the Frese FUELSAVE® System can enhance performance, reduce energy consumption, and support the marine industry's green transformation."

TURBOMED TO DEMONSTRATE ONBOARD TURBOCHARGER BALANCING

With vessel uptime, efficiency, and emissions performance under growing scrutiny, **TURBOMED S.A.** will return to Posidonia for a third time to showcase advanced turbocharger service solutions tailored to the realities of modern shipping. Based in Perama, Greece, TURBOMED specialises in turbocharger repair, onboard maintenance solutions, and spare parts supply, supporting shipowners and operators worldwide. A key highlight of the company's presence at Posidonia 2026 will be a live demonstration of its new onboard Portable Dynamic Balancing service, performed using TURBOMED's proprietary Portable Dynamic Balancing Machine. **Ioannis Paraskevopoulos, Chief Executive Officer of TURBOMED S.A.**, commented: "Our participation in Posidonia 2026 reflects TURBOMED's ongoing commitment to delivering specialised turbocharger solutions that enhance reliability, efficiency, and operational uptime. Posidonia remains a key international platform for strengthening partnerships and engaging with the industry on evolving technical and energy-related requirements." Looking beyond the exhibition, TURBOMED S.A. is actively expanding its global service network, with new service stations planned in Colombo (Sri Lanka), Batam (Indonesia), and Shanghai (China).

ENDRESS+HAUSER HELLAS BRINGS BUNKERING AND EMISSIONS SOLUTIONS

Endress+Hauser Hellas will use Posidonia 2026 to present advanced measurement solutions supporting compliance, efficiency, and safe marine operations, as shipping accelerates its transition toward alternative fuels, emissions control, and data-driven processes. The Greek subsidiary of the Endress+Hauser Group, a global leader in process automation, provides instrumentation, systems, and services for critical marine, energy, and industrial applications, backed by nationwide coverage and a team of local specialists. At Posidonia 2026, the company will highlight high-accuracy LNG bunkering metering solutions for custody transfer, alongside the MARSIC300 emissions monitoring system, designed to support environmental and regulatory compliance. Endress+Hauser continues to invest in solutions for emissions analysis, fuel management, water quality monitoring and digitalisation. The company also sees rapid growth in AI-driven applications, particularly in predictive maintenance, fuel optimisation, and fleet monitoring, enabling more data-driven decision-making across shipping operations. **Dimitris Gravanis, Managing Director of Endress+Hauser Hellas**, said: "Posidonia represents a strategic meeting point for the global maritime community and an ideal platform for Endress+Hauser to demonstrate its role as a reliable technology partner. Our participation in Posidonia 2026 underlines our commitment to delivering high-accuracy instrumentation and comprehensive services that support energy efficiency, environmental compliance, and digital transformation."

GOLDEN AVIATION STRENGTHENS MARITIME CONNECTIONS AND CONNECTIVITY

Returning to Posidonia after its 2024 debut, **Golden Aviation Ltd** will use the 2026 exhibition as a platform to reconnect with existing maritime clients, strengthen supplier relationships, and engage with new industry contacts from across the global shipping community. Specialising in private jet and cargo aircraft charter solutions, the London-based brokerage sees Posidonia as an important face-to-face environment for relationship building, market insight, and long-term partnership development. As **Managing Director Adam Calvert** notes: "Posidonia provides a great opportunity to step away from daily operations and spend meaningful time face to face with industry peers, long-standing partners, and prospective clients. For us, attending is about being present, being engaged, and continuing to build the relationships that underpin everything we do." With a strong focus on personal service, responsiveness, and global connectivity, Golden Aviation's participation underlines the growing importance of specialised aviation support services within the wider maritime ecosystem.

NORMEC VERIFAVIA TO HIGHLIGHT MARITIME SUSTAINABILITY VERIFICATION SERVICES

Maritime verification and auditing specialist **Normec Verifavia** returns to Posidonia for a second time, focusing on the growing need for independent assurance as environmental regulations reshape shipping operations. Building on the discussions initiated during its participation at Posidonia 2024, the company expects industry conversations in 2026 to move further from regulatory awareness toward practical implementation, particularly as the EU Emissions Trading System and FuelEU Maritime enter active compliance phases. At the exhibition, Normec Verifavia will highlight its established portfolio of sustainability assurance services, including EU ETS and FuelEU Maritime verification, EU MRV assessments, alternative fuel emissions verification, and water testing services supported by a global network covering more than 70 ports. "Regulatory requirements are becoming more complex across shipping, and credible verification is central to ensuring compliance and accountability," said **Yuvraj Thakur, VP Commercial and Managing Director**. "Posidonia remains important because it brings people together, supports constructive discussion, and helps build long-term relationships across the maritime community."

CARBON ZAPP MAKES POSIDONIA DEBUT WITH MARINE-FOCUSED LTBR-X SHOWCASE

Greek advanced injection service equipment and tools specialist **Carbon Zapp** will make its Posidonia debut in June, using the exhibition as the launchpad for its expansion into the global marine diesel service market. At Posidonia, Carbon Zapp will introduce the maritime industry to its flagship LTBR-X platform, positioned as the only standalone test bench capable of servicing every major marine injection system currently in operation. The company will stage live demonstrations at its stand, focusing on marine Common Rail injectors, EUI/EUP, HEUI systems, and high-pressure CR pumps used across commercial fleets. The company is also in active discussions with marine aftermarket distributors, ship repair yards, and engine remanufacturers across Europe, the Middle East, and Asia, with expectations of announcing strategic distribution partnerships during Posidonia week. "Posidonia 2026 is a milestone moment for Carbon Zapp. For over three decades, we have been the global benchmark for diesel injection service technology in the automotive world, and now we are bringing that same precision, reliability and innovation to the marine industry," said spokesman **Nikolas Pantazis**.

List of Confirmed Conferences & Seminars at Posidonia 2026 as per 30.04.2026

	Organiser	Event Title	Posidonia Venue	Time	Contact Organiser
WED 6/5	Cannon Events	Marine Insurance Greece Conference - Day 1	Eugenides Foundation	9:30-16:00	Daniela@Cannonevents.com
THU 7/5	RightShip	Turning Data Into Trust: Reimagining Maritime Risk & Safety	Athenaeum Intercontinental Athens	9:00-17:00	marketingcomms@rightship.com
	Cannon Events	Marine Insurance Greece Conference - Day 2	Eugenides Foundation	9:30-16:00	Daniela@Cannonevents.com
MON WED 1/6 20/5	Naftemporiki Media Group	Shipping Between Global Powers: Where Geopolitics, Energy & Climate Shape the Future	Four Seasons Astir Palace Hotel Athens	10:30-17:30	events@naftemporiki.gr
	Capital Link	10th Capital Link Maritime Leaders Summit - Greece	Athenaeum Intercontinental Athens	8:30-16:15	forum@capitalink.com
	TradeWinds	TradeWinds Shipowners Forum 2026	Conference Hall	10:00-18:00	info@tradewindsevents.com
	Embassy of the Republic of Poland in Athens under the auspices of the Ministry of Foreign Affairs of the Republic of Poland within the framework of Poland's presidency of the Council of the Baltic Sea	Energy Security and Critical Infrastructure in the Baltic and Mediterranean Maritime Space - Mutual Risk, Mutual Resilience	Seminar Room Central	10:30-12:30	events.athens@msz.gov.pl
	Triad Ltd	Redefining Maritime Safety: Triad Ltd & Fire Security Set a New Global Standard in Cable Fire Protection	Seminar Room 1A	10:45-12:30	info@triad-ltd.com
	Core Power	Nuclear in Maritime: Powering Next Generation Shipping and Strengthening Energy Security	Seminar Room 2A	10:45-12:30	events@corepower.com
	Flanders Investment and Trade	Expertise from Flanders, Belgium in Maritime Technology & Sustainable Innovation	Seminar Room 2B - Sponsored by ADMIRALTY	10:45-12:30	athens@fitagency.com
	SNAME	The Greek Shipyard Renaissance: Rebuilding Capacity, Restoring Leadership	Seminar Room 1B	12:45-14:30	events@sname.org ; silogrammenou@sname.org
	Lloyd's Register	Lloyd's Register at Posidonia - watch this space	Seminar Room 2A	12:45-14:30	nagia.mentzi@lr.org
TUE 2/6	UK Hydrographic Office	Panel discussion: 5-100 in focus - Sea trials insights	Seminar Room 2B - Sponsored by ADMIRALTY	12:45-14:30	events@ukho.gov.uk
	Prevention at Sea	Panel Discussion Topic1: The evolution of SMS and Vetting: Have we made ships safer - or just smarter on paper? Topic2: AI in Maritime Decision-Making: Tool or Authority? Presentation: MORSE-BCAV-VETTING	Seminar Room 1A	14:45-16:30	info@preventionatsea.com
	SQLearn	SQLearn x RightShip Exclusive Conference: RISQ 3.2 Uncovered (Updates & Practical Preparation)	Seminar Room 1B	14:45-16:30	kgouveli@sqllearn.com
	SAFETY4SEA	Port State Control MasterClass	Seminar Room 2A	14:45-16:30	team@safety4sea.com
	UK Hydrographic Office	Seminar: Introduction to 5-100 - The next generation of navigation	Seminar Room 2B - Sponsored by ADMIRALTY	14:45-16:30	events@ukho.gov.uk
	University of Piraeus - NTUA - Deloitte - Hydrus	Intelligent Soft Skills Measurement Instrument for the Maritime Industry	Seminar Room 1B	16:45-18:30	angelos@pantouvakis.eu ; vlavianos@hydrus-eng.com ; a.papadakis@hydrus-eng.com
	Fortune Technologies & Microsoft	AI & Copilot in Maritime ERP	Seminar Room 2A	16:45-18:30	info@frntech.com
	Kyvernitis Travel Group	Crew Insights Panel Discussions	Seminar Room 2B - Sponsored by ADMIRALTY	16:45-18:30	posidonia@kyvernitis.gr
	World Maritime University (WMU) of the International Maritime Organization (IMO)	Ocean Technologies and the Future of the Ocean	Seminar Room 1A	16:45-19:00	asp@wmu.se
	The Captain's Table	Posidonia Maritime Tech Demo Day	The Margi Hotel, Liteos 11, Vouliagmeni	10:00 - 14:00	RSVP@HERE
	Hellenic Marine Environment Protection Association (HELMEPA)	Ocean Intelligence in MetaShipping: Biodiversity - People - Innovation - Investment	Conference Hall	10:30-14:30	helmeпа@helmeпа.gr
	Heraklion Port Authority S.A. (Οργανισμός Λιμένος Ηρακλείου Α.Ε.)	European Project Blue Ports - Blue Careers in Net Zero Energy Ports	Seminar Room 1A	10:45-14:30	info@portheraklion.gr ; stournaki@tuc.gr
	SAFeCRAFT EU	SAFs and Energy Efficiency Technologies towards Decarbonization: Challenges, Opportunities and Lessons Learned	Seminar Room 1B	10:45-12:30	ergas@wegemt.eu
	Maritime Research Institute Netherlands (MARIN)	Performance driven strategies for sustainable ship operations	Seminar Room 2A	10:45-12:30	PM.Hooijmans@marin.nl
	Marketing in Maritime	MIM-Masterclass: Learn from top Marketing experts from across the industry	Seminar Room 2B - Sponsored by ADMIRALTY	10:45-12:30	kae-ley.brann@mimcrowd.com ; info@mimcrowd.com
	BIMCO	Crewing the Future: Supply, Sustainability & Seafarers' Rights	Seminar Room Central	11:30-13:30	et@bimco.org
	Alpha Marine	SEASTARS & FLEETfor55 EU Panel	Seminar Room 1B	12:45-14:30	p.dadinaki@alphamrn.com
	Green Jakobsen, Britannia P&I, OCIMF, and INTERTANKO	Performance Influencing Factors. What Really Drives Safety?	Posidonia Seminar Room 2A	12:45-14:30	m.green@green-jakobsen.com
	Maritec Naia	Maritec Naia Seminar	Seminar Room 2B - Sponsored by ADMIRALTY	12:45-14:30	info@naiaslabs.com
	Xinde Marine News	Xinde Marine Forum Athens 2026 - by invitation only	PPA S.A. Event Hall	13:00-19:00	event@xindemarine.com
	RINA Hellas	Presentation / Seminar	Seminar Room 1A	14:45-16:30	mina.champip@rina.org
	NEPA Economic Consulting	The Future of Shipping Finance: Outsourcing, Tax Efficiency & Global Compliance	Seminar Room 2A	14:45-16:30	a.dromousis@nepa.gr
	DNV Maritime	Press Conference (by invitation only)	Seminar Room 1B	14:45-16:30	georgina.vranaki@dnv.com
	EcoShipYard & Circles of Life EU Projects	Green Shipbuilding	Seminar Room 1A	16:45-19:00	bonazountas@epsilon.gr ; drc@danaos.gr
	WMG Sustainable Innovation	Delivering the EU Ports Strategy: Requirements, Investment Needs & Funding Pathways	Seminar Room 1B	16:45-18:30	a.lekka@wmg.com.gr
	ABB SA	Hybrid Electric Propulsion, Flexible & Suited for the Future Shore Power and Smart Ports	Seminar Room 2A	16:45-18:30	stg.leira@no.abb.com ; konstantinos.filippou@gr.abb.com
	Auramarine Ltd.	How to Ensure Safe Use of Marine Fuels and Engine Health	Seminar Room 2B - Sponsored by ADMIRALTY	16:45-18:30	noora.jefimoff@auramarine.com
	University of Piraeus, Maritime Studies	Shaping Future Leaders: Collaboration, Networking and Global View for Maritime Education	Conference Hall	17:00-19:00	gvaggelas@unipi.gr
	MARTECMA	Carbon Capture Systems Forum: From Concept to Commercial Reality	Conference Hall	10:00-17:00	info@martecma.com
	American-Hellenic Chamber of Commerce (AmChamGR) / North American Marine Environment Protection Association (NAMEPA) / U.S. Embassy Athens	5th Trading in U.S. Waters Seminar: U.S. & Greek Approaches on Today's Maritime Challenges	Seminar Room Central	10:30-16:30	vtseritzoglou@amcham.gr ; CEO@namepa.net
	PPG Protective & Marine Coatings	Future proof your Vessel with Sustainable Coating Solutions	Seminar Room 1A	10:45-12:30	shambbrick@ppg.com
	LMA Legal London	London Maritime Arbitration Seminar	Seminar Room 1B	10:45-12:30	mroca@lmallegal.co.uk
	HHX.blue	Confidence Is Not Intelligence - Why Technically Sound Shipping Decisions Still Destroy Value	Seminar Room 2A	10:45-12:30	Orestis.Schinas@hhx.blue
	Simtec SA	Engineering Simulation for the Marine Industry: Digital Transformation at the Pace of Technology	Seminar Room 1A	12:45-14:30	chrisa@simtec.gr ; hpekkas@simtec.gr
	A.S. Prote Maritime Ltd.	The Maritime Drone Continuum: Integrated Drone Operations for Smart Ports, SAR, Anti-Piracy and Subsea Autonomy	Seminar Room 1B	12:45-14:30	info@a-s-prote.com
THU 4/6	PYLI NET	Beyond Technology - Human Responsibility at Sea	Seminar Room 2A	12:45-14:30	admin@pyli-net.com
	UK Hydrographic Office	Panel discussion: 5-100 in focus - Sea trials insights	Seminar Room 2B - Sponsored by ADMIRALTY	12:45-14:30	events@ukho.gov.uk
	WIMA	Human Factor in Maritime Tech Transformation: 20 Years of Lessons & What's Next	Seminar Room 1A	14:45-16:30	info@wima.gr
	Bureau Veritas	How Bureau Veritas Digital Solutions Reduce Risk, Lower Cost & Increase Asset Value	Seminar Room 1B	14:45-16:30	anna.lazaridou@bureauveritas.com
	OneCare Group	Transforming Healthcare at Sea: Future Health Systems for the Maritime Industry	Seminar Room 2A	14:45-16:30	marketing@onecaregroup.global
